International Zhong Gong Headquarters' Inc.:

Asking for Humanitarian Aids

The organization of International Zhong Gong Headquarters is an international non-profit social group under the leadership of spiritual leader Zhang Hongbao, organized by 38 millions of Zhong Gong practitioners, with its members widely spreading in Mainland China, Japan, Korea, The British Commonwealth of Nations, European Community and the United States, etc. Zhong Gong is a kind of health-building practice to enhance mental and moral cultivation, generally called "Qi Gong".

Zhang Hongbao, the spiritual leader of Zhong Gong organization and its 38 million practitioners and more than one-hundred millions supporters share a common wish that China should develop in the direction of freedom, democracy and civilization. In order to promote the cause of democratization in China and oppose the Chinese Communist autocratic dictatorship and tyranny, Zhong Gong organization launched a nationwide anti-tyrant action named "Zhong Gong 99.8 Action". Zhong Gong organization has made its full support to all the efforts in promoting the democratization of China and improving its human rights conditions. In addition to its support in political and media aspects, it has successively provided the pro-democracy movement overseas with financial aids in the amount of approximately \$600,000.00. In face of the tremendous difficulties caused by the Chinese Communist regime in its cruel persecution of Zhong Gong Organization, we raised a fund in the amount of two million and seven hundred thousand dollars, with our huge effort and dedication, to support the Chinese pro-democracy movement and its anti-tyranny fights.

By its special health-building techniques, Zhong Gong organization has made healthy tens of millions of people. Zhong Gong upholds the moral standards of "Eight Virtues & Eight Calls", which has won high praises from all walks of life in China. Zhong Gong is well known for its charitable contributions in restoring elementary schools, building bridges and roads as well as donating (more than 3 million RMB) in disaster rescues. Zhong Gong has laid a very good grassroots foundation among the people in Mainland China.

Zhong Gong organization owns its health-cultivation industry, with Kylin Group as its entity. This Group is an enterprise of collective ownership legally registered with the Chinese government. It consists of one hundred twenty employees and almost a hundred thousand franchised agencies located all over China. Subordinated to Kylin Group, there are six sets of programs, including Qi Gong Training Program, Health Cultivation Program, Tourism Program, Formal Educational Program (from kindergarten to university), Medical Service Program as well as Program for Production and Distribution of Health Cultivation, between 1992 to 1999, it had paid taxes totally to the country more than twenty millions Yuan. After September 1999, it was forced out by the Chinese Communist authorities for fear of its becoming the most competent opposition party should it change its banner. Approximately six hundred of its leading members suffered from arrest and imprisonment. Eight hundred ten million RMB of its asset in China were confiscated by the Communist tyranny.

The American Government and its people expressed their profound compassion for the political persecution that Zhong Gong Organization suffered and voiced its timely humanitarian support for Zhong Gong Organization. For three consecutive years, the State Department has justified Zhong Gong in its Annual Human Rights Reports. Ex-Secretary of State Albright announced her public condemnation against the Chinese Communist crackdown on Zhong Gong. Since year 2001, the United States Immigration and Naturalization Service has listed Zhong Gong as a special group suffering from political persecution and granted the political asylum claims to its members in the United States.

Zhang Gong Organization led by Zhang Hongbao has been persecuted by CCP for 20 years since 1990. It started the "99.8" national campaign to fight in a peaceful, reasonable manner after CCP openly started the persecution in 1999. And then Mr. Zhang wrote "Major points of view of a dissident" which hit right at the core of CCP theoretical system. Then, he wrote "Great Strategy for Re-organizing Nations" and "Eight Motions for CCP Constitution Amending". In 2003, he accepted the recommendation and became the President of China Shadow Government. In January 2005, the World Chinese Association elected him to be "the most outstanding democratic leader". Mr. Zhang published his work "CCP's Post-nuclear Lethal Weapons and Its National Military Strategic Goal" to smash the "King of Terror" Jiang Zemin's attempt to dominate the ambition of whole world. The four major cities in China that are directly governed by central CCP have started the act of "Support Zhang Hongbao to promote political reform, urging Jiang to retire in order to keep peace". At present, this act has spread widely to all the provinces, cities, counties and towns in China.

Mr. Zhang Hongbao has been regarded as biggest potential political opponent with the regime of the Communist Party of China by Jiang Zemin, therefore Mr. Zhang and his Zhang Gong organization have been suffered from incessant political persecution seriously. From 2003 to July 2006, Jiang Zemin's subordinates in US had made up to 46 political vexations lawsuits against Mr. Zhang and Zhong Gong Organization, furthermore, they started crushing strike on Zhong Gong organization after Mr. Zhang passed away in an unexpected traffic accident. By the secret trade-off between Chinese Government and the US Government, in America, Los Angeles County took over and sealed up all the estates of Mr. Zhang and Zhong Gong organization including over forty thousand dollars in the bank account and two estates located in Los Angeles and in Texas, the county sold everything belongs to International Zhong Gong Headquarters Inc. and some stuffs in Tian Hua Xiu Yuan without any authorization, and the political vexations suits are going on at the courts. In Hong Kong, the bank account savings close to sixty millions US dollars under Mr. Zhang and his organization had been sealed up disastrously by the court with the name called "economic criminal and gangland organization", the organization is faced with great disaster.

We are here asking for world-wide humanitarian aids to help our organization with the action of "protecting reputation, supporting enterprise and striving for survival", in order to clean up the dirtiness and the charges framed by Jiang Zemin's vicious force, to achieve our great willing to "Rejuvenate Chinese civilization, Benefit human society, Relieve all living creatures, Make total liberation to the body and mind", realize the desire of "May the World be Filled with Supernatural Beings", and to make new contribution for human healthy cause and world peace.

July 1st, 2009

Expulsion Instruction

Yan Qingxin (aka Tian Jing), Female, 64 years old, born in Sichuan Province. In 1988, she was lucky enough to meet Zhong Gong (Chinese Super Qigong) special medicine and its founder Master Zhang Hongbao who cured her uterus myoma and some other diseases which had made her suffer much. She became one of Master Zhang Hongbao's apprentices after that, although she did not really learn the Zhong Gong methods. Having found the merit of Zhong Gong development, she applied for a job in Zhong Gong organization and Mr. Zhang asked her to take the responsibility for part of financial affairs. Before this, she had served in the Secret Service Agent in the army (General Staff) for over 14 years. In peacetime she acted as agent provocateur, and in calamity period she turned to a renegade. She betrayed her Master and benefactor to command the decapitation in the front in the origin of desire of power and the huge profit given by Jiang Zemin's evil regime.

Between the period from 1988 to 2009 (13 years working in Zhong Gong organization and 9 years in America), Yan Qingxin had committed eleven crimes including: 1. Blasphemous and destroy religion, traitorous action, Premeditate to assassinate 2. Fraud 3. Grant theft 4. Delivery of information to the Chinese Communist Authorities to request for immediate arrest of Zhong Gong high level leaders 5. Threats 6. Malice uses American administration of justice to design over 40 political vexatious suits 7. Slander 8. R.I.C.O Violations slander per se 9. Violation of Californian acts on human rights and privacy 10. Obstruct and destroy funeral affairs, bury matters 11. Perjury. She cooperated with Jiang Zemin's evil regime to murder the teacher, attempt to shatter Zhong Gong organization thoroughly. She is notorious and resented by both people and gods.

Zhong Gong is an eminent and decent organization. Yan Qingxin's various misdeed has deeply harmed the organization and endangered the society. She had disobeyed Master's teaching totally, living without the most minimum personality and morals base line. In order to revitalize Zhong Gong organization, the board of directors of International Zhong Gong Headquarters Inc. has made a decision consistently passed by everybody on July 1st, 2009 to take the betrayer, degenerate Yan Qingxin's name off the organization.

We sincerely hope that everybody will learn a lesson from this to obey the state law strictly in the countries where you live, emphasize merits and virtues, and observe Master's teaching and advice so that we can devote ourselves to revive eastern civilization, benefit mankind and contribute for world peace.
